- **Gas Department shall return work order verifying the footage of gas line installed. If a variation is noted, the Billing Department will make the necessary billing adjustments to the customer.**
- Any services other than the above shall be charged on a unit price of \$3.50/linear foot. (Such as service to a garage or house if second service.)
- Service piping footage is based on the distance from property line to the meter set location.
- Restoral from property line to meter set location shall be by owner.
- When customer has air test ready, a 24-hour notice must be given before air test inspection will be performed. **All air tests must be in progress a minimum of 12-hours prior to test inspection.** The HPUC Gas Department will conduct an inspection and flow gas if inspection is satisfactory. Contractor of piping must be present at time of inspection.
- HPUC service policy allows single family dwelling **piping to be installed by its owner.** The owner or any installer shall be aware of HPUC service installation Policy Regulations and Requirements.
- **The property owner is responsible for locating all private utilities on the property, and if deemed necessary, by the HPUC Heat Department.**
- **HPUC Heat Department will determine if barricade is required.**

*I hereby apply for gas service as listed above and agree to be governed at all times by the rules and regulations of the HPUC. I have received the "Gas Service Installation Policy".*
