Subject: HOUSE SCREW PINS

House screw pins anchor the HPUC overhead electrical service to the exterior of a customer's home. The HPUC will provide a house screw pin if needed. It is the responsibility of the customer to install the house screw pin on the exterior of the house where the HPUC overhead service line from the pole will be attached.

The HPUC is not responsible for loosened or damaged siding, pulled-down mats, or any other damage or problem caused by house screw pins.
