Subject: MOVING AN ELECTRICAL WOOD POLE

Customers may request that wood power pole be moved by the HPUC (example: when a customer is building a garage). The HPUC will move the wood power pole if it is feasible. A fee will be charged to the customer. An *Application to Move a Wood Pole* form must first be completed by the Service Clerk and approved by the Director of Electrical Systems prior to moving the wood pole.

Note: HPUC wood power poles have “A” letter after the 4-digit pole number. Telephone company poles have a “B” letter after the four-digit pole number. The local telephone company is responsible for moving these poles. A customer who requests that a “B” pole be moved will be directed to contact the local telephone company.
