**Subject: STREET LIGHTING – NEW DEVELOPMENT**

The HPUC charges a fee per lot for installation of street lights in a new development. An *Application for Street Lighting* must be submitted to the HPUC offices by a developer at least six weeks prior to the date that the street lighting is needed. Work will not begin on the street lighting until the application and fee are received by the HPUC.

The HPUC will typically begin installation within six weeks of receipt of the completed application and fee. The HPUC may be unable to begin installation of new street lighting within the designated six weeks due to unforeseen circumstances. Every good faith effort will be made to begin installation as soon as possible.

Completion of new street lighting installation will depend on the size and scope of the development project.
