Subject: NATURAL GAS LEAKS

Customers must notify the HPUC immediately if any escape of natural gas is suspected or discovered. There is no charge to the customer for investigation of a suspected natural gas leak. When a leak is discovered, the natural gas will be shut off at the structure's service valve or meter valve. Open lights are not allowed near any escape of natural gas.

The HPUC is not responsible for any damage or loss that may result from the escape of natural gas on or in a customer's premises or property.
