

Re: Free Electrical Energy Analysis

Dear Residential Electric Utility Customer:

The Hibbing Public Utilities is offering a FREE residential electrical energy analysis for your home. This will include free energy conservation products to reduce electrical and water usage in your home.

The products installed and provided for you will consist of screw-in LED light bulbs, high pressure shower aerator, kitchen faucet aerator with spray, coil cleaning brush for refrigerator, electric water heater insulated jacket, a timer for car heater plug ins. All materials are installed as part of the program.

Note: Northern Energy Development will contact you and perform the electrical analysis or call 218-780-5383 for an appointment.

Please complete the information below and return it to the Utility's Service Department or mail it to Hibbing Public Utilities, 1902 E. 6th Ave., Hibbing, MN 55746, Attn: Service Department.

(Please keep top portion for your records. Return bottom portion. Thank you!)
